

## Community Vision Boarding

### Objective

Creator Circles are times set aside by the Black Girls Create community to cultivate our creativity as a collective. During this special Creator Circle event, we will design vision boards to capture our creative goals and aspirations. We hope to see participants connect with others and manifest their creative dreams!

### Prework

Prior to attending the community vision boarding session, participants will receive an email providing them with a list of materials and a value sorting activity to complete ahead of time. This activity should put participants in a reflective space, thinking about what is most important to them before we dive into what they want to be true in future.
